SUMMARY

Software Engineering graduate with experience in full-stack development and IT engineering in the banking industry. Skilled in software development, RESTful API, database management, cloud infrastructure, and CI/CD. Experienced in supporting high-availability banking systems and payment technology, with strong problem-solving, analytical, and teamwork skills. Passionate about learning new technologies and developing innovative technology solutions.

EDUCATION HISTORY

Software Engineering, Telkom Univeristy

provisional GPA of 3.7

August 2021 November 2025

EXPERIENCE

Full Stack Developer, Navcore Nextology

Developed web and mobile applications across frontend and backend, applying software development, API integration, database management, and authentication principles. My main focus is to create efficient, scalable, and user-friendly systems.

- Develop interactive user interface using modern js framework
- Designing and building RESTful APIs and PostgreSQL
- Manage authentication and authorization (JWT, OAuth)
- Apply CI/CD, testing, and version control principles
- Optimize performance and responsiveness across devices

Mei 2025 until January 2026

IT Engineer , PT Bank Rakyat Indonesia (Persero) Tbk

Responsible for monitoring and maintaining banking payment systems and IT infrastructure to support secure, stable, and high-availability transaction services

- Monitoring servers and cloud environments
- Monitoring FDS (Fraud Detection System) for Transaction
- Monitoring Payment System(Bi-fast, Bri-fast, Kliring, RTGS, SWIFT)
- Managing and maintaining infrastructure
- Implementing and maintaining CI/CD pipelines

February 2026 until Now

ORGANIZATIONAL & LEADERSHIP EXPERIENCE

- **Open Recruitment Commite**, Telkom University Badminton Club, 2022
- **SE-Now Party Commite**, Student Association Software Engineering, 2022
- **Training**, Telkom University Badminton Club, 2023
- **PKKMB University Commite**, Telkom University, 2023
- **Speaker & Tutor Digitalization of Learning**, Jaisyul Qur'an, 2024
- **Assistant Lecturer Human Computer Interaction**, Telkom University, 2025

FEATURED PROJECTS

SDA Jakarta Utara Web App, Full Stack Web Application

React TS | Fast API | PostgreSQL | Tailwind

A platform for managing proposals related to technical infrastructure for water resources in North Jakarta. Easy proposal input, design calculations, and efficient proposal validation.

Automart Mobile App, Full Stack Mobile Application

Ionic | Konsta | MUI | React

AutoMart is a mobile application that simplifies the process of buying and selling vehicle spare parts in a practical and secure manner.

Research & Innovation Tel-U Web App, Full Stack Web Application

React JS | Rest API | Tailwind | Laravel

Telkom University Innovation and Inspiration Website is a website that presents and displays information clearly about the innovation and inspiration owned by Telkom University.

More Projects

Portofolio : <https://herdi-ardana-portofolio.vercel.app/>

TECHNICAL SKILLS

- **Programming:** React JS/TS, Vue JS, Flutter, Python Django, Fast API, PHP Laravel
- **Database:** PostgreSQL, MySQL, Microsoft SQL Server, Redis
- **Security:** JWT, OAuth
- **DevOps:** Linux, Kubernetes, Docker, Bamboo, Zabbix

LICENSING AND CERTIFICATION

- **SQL Data Base Intermediate**, Sololearn, 2023 : [Certificate SQL](#)
- **Java Intermediate**, Sololearn, 2023 : [Certificate Java](#)
- **Phyton Intermediate**, Sololearn, 2023 : [Certificate Python](#)
- **Excel for Data Analyst**, DigitalSkillArea, 2024 : [Certificate Excell for Data Analyst](#)
- **Phyton for Data Analyst**, DigitalSkillArea, 2024 : [Certificate Python for Data Analyst](#)
- **Data Analyst**, DigitalSkillArea, 2024 : [Certificate Data Analyst](#)
- **Mobile Development**, GDSC Telkom University 2024 : [Certificate Mobile Development](#)
- **Toefl**, Golden English 2026 : [Certificate Toefl](#)
